# WHEEL TROLLEY OFF ROAD

## STORAGE AND TRANSPORT OF MEDIUM-SIZED TYRES AND WHEELS

Wheel Trolley Off Road is with a diameter of 700 mm ideal for storage and transportation of medium-sized wheels and tyres. Wheel Trolley Off Road is fitted with extra-large casters to make the transport on uneven surfaces easier - for instance across courtyards etc.

### WHEEL TROLLEY OFF ROAD HAS THE SAME QUALITIES AND PURPOSES AS THE REST OF THE WHEEL TROLLEY FAMILY

- Storage of wheels during mechanical work
- Transport of wheels from car lift to the tyre changer or to the tyre shelves
- Storage of customer wheels when changing from summer to winter tyres or vice versa

The Wheel Trolley Off Road is designed for either 8 tyres or 4 complete wheels and has a load capacity of 180 kg/400 lbs. The Wheel Trolley Off Road is available with and without wheel brakes. The model is delivered in both 1-piece-boxes (One-by-one) and 4-piece-boxes (Four-pack).

### FEATURES

- Transport of medium-sized wheels
- Easy transport on uneven surfaces - like courtyards
- Suitable for 4 complete wheels
- Available with and without wheel brakes

### VEHICLE
