Part no. 40-165

BATTERY SENSE

Easily track the health of your powersport vehicle battery with BATTERY SENSE, the unique Bluetooth enabled smart tracking device from CTEK. It's easy to install and data is delivered through a free to download iPhone or Android App.

Part no. 40-149

ABOUT CTEK

CTEK was founded in 1997 and since then we've been developing and manufacturing high-quality battery chargers with unique cutting-edge technology, for all types of lead-acid batteries. Why? Because a battery can last 2-3 times longer if you maintain and charge it properly. This benefits the environment, saves people a lot of money and makes vehicles more reliable. And that's what keeps us going.

MAXIMIZING
BATTERY
PERFORMANCE

CHARGED FOR FREEDOM

Thrills, action, fresh air - loving powersport is easy - whether you're on land, sea, snow or ice. Vehicle performance is everything and at the heart of it all is the battery. Your battery needs to be charged to maximum capacity to deliver peak power performance every time your powersport vehicle is started. The CT5 POWERSPORT charger is specifically designed to charge and maintain powersport vehicle batteries, helping you to enjoy the pure freedom of powersport.

ALWAYS READY FOR ACTION

A powersport vehicle is typically stored for long periods but you always want it to be ready for action. The CT5 POWERSPORT charger has three key charging & maintenance stages to maximise the power and lifetime of the battery. It uses advanced technology to constantly monitor the

battery's power and health and take action when required. The CT5 POWERSPORT charger can be attached to the battery indefinitely if required without risk of over or under charging.

FOR MOTORCYCLES, ATVS, JET SKIS AND SNOWMOBILES

The CT5 POWERSPORT charger treats every battery carefully as an individual. The charger is easy to use and works with all powersport vehicle batteries. Connect the CT5 POWERSPORT charger direct to the battery or via the 12V CANBUS socket (compatible with BMW motorcycles) using the INDICATOR PLUG 12V accessory.

KEY FEATURES

- For all Powersport vehicles with 12V batteries.
- 2.3A of power, just right for charging powersport vehicle batteries.
- Maintenance charging for seasonal powersport vehicles stored for long periods of time.
- Enables charging on BMW motorcycles using CANBUS technology.

THREE KEY CHARGING & MAINTENANCE STAGES

CHECK

Tests battery condition and restores battery health

CHARGE

Safe, fast charging of battery to maximum capacity.

CARE

Patented maintenance for maximum battery performance and lifetime.

PRACTICAL & SIMPLE TO USE

The CT5 POWERSPORT charger is a practical and simple to use charger with an easy to understand display. It is non-sparking, reverse polarity protected and short-circuit proof, and comes with a 5-year warranty.
